PROFESSIONAL PROFILE

Business Operations professional with nearly 2 years of experience supporting SLA-governed enterprise workflows across Fortune 500 environments. Background includes infrastructure operations, structured onboarding workflows, and cross-functional process coordination within metrics-driven settings. Recognized for maintaining strong process discipline, improving workflow visibility, and supporting stakeholders through reliable operational execution. Working knowledge of Excel-based tracking, queue monitoring, and performance-driven service environments.

CORE SKILLS

- **Business Operations:** SLA-driven workflows, queue management, workflow coordination, throughput monitoring.
- **Process Excellence:** KPI awareness, Root Cause Analysis (RCA), stakeholder coordination, SOP adherence.
- **Tools:** Excel (VLOOKUP, Pivot Tables), ServiceNow, Workday, CRM systems, Citrix.
- **Analytics Foundations:** SQL (Joins, Aggregations), Python (Pandas), Power BI (Data Visualization).

PROFESSIONAL EXPERIENCE

DXC Technology

Infrastructure Operations Analyst

Jan 2025 – Aug 2025

- Executed enterprise-scale infrastructure workflows aligned to defined SLA targets in a high-volume environment.
- Monitored queue health and aging metrics to maintain consistent operational throughput.
- Partnered with L2 and cross-functional teams to resolve dependency-driven tickets efficiently.
- Maintained structured ticket documentation to support audit readiness and workflow transparency.

Accenture (via First Meridian)

HR Operations Practitioner

Sep 2024 – Dec 2024

- Supported structured onboarding workflows within a metrics-driven HR operations environment.
- Managed case lifecycle tracking through ServiceNow to maintain end-to-end process visibility.
- Ensured data accuracy and SOP adherence across onboarding workflows.
- Coordinated with internal stakeholders to resolve workflow dependencies and improve turnaround time.

[24]7.ai (Best Buy Process)

Operations Support Associate

Feb 2023 – Oct 2023

- Managed high-volume service workflows within a KPI-governed operations environment.
- Maintained accurate case documentation in CRM systems to support reporting integrity.
- Resolved process-driven account and product cases following defined workflow playbooks.
- Consistently met SLA and turnaround targets within a metrics-driven delivery model.

KEY PROJECTS

Retail Sales & Inventory Optimization Study

- Conducted exploratory sales analysis to evaluate category performance trends and seasonal demand patterns.
- Reviewed Weeks of Supply (WOS) indicators to flag potential out-of-stock risks for fast-moving items.
- Built interactive dashboards to improve visibility into inventory health and stock turnover behavior.

Marketplace Operations & Logistics Performance Study

- Analyzed sample fulfillment data to understand logistics workflow patterns and delivery cycle times.
- Evaluated delivery timelines against customer experience indicators to identify regional performance gaps.
- Developed visualization reports highlighting marketplace service trends and delivery success metrics.

EDUCATION

Master of Business Administration (MBA)

2025 – Present

University of Mysore

Bachelor of Business Administration (BBA)

2019 – 2022

St. Francis College
