PROFESSIONAL PROFILE

Business Operations Analyst with nearly 2 years of enterprise experience supporting operational workflows and reporting processes across large-scale environments. Experienced in maintaining structured operational records, tracking workflow performance, and collaborating across cross-functional teams to ensure reliable process execution.

Combines operational discipline with analytical thinking to improve workflow visibility and support data-driven decision making. Working knowledge of Excel-based reporting, Power BI dashboards, and SQL/Python analysis used to track performance metrics and generate operational insights.

CORE SKILLS

- **Business Operations:** Workflow coordination, process monitoring, stakeholder collaboration, operational reporting.
- **Operational Analytics:** KPI tracking, operational dashboards, performance monitoring, reporting analysis.
- **Analytics & Reporting Tools:** Excel, Power BI (basic), SQL (basic), Python (data cleaning).
- **Enterprise Platforms:** ServiceNow, Workday, CRM systems, Citrix.

PROFESSIONAL EXPERIENCE

DXC Technology

Infrastructure Operations Analyst

Jan 2025 – Aug 2025

- Supported enterprise infrastructure workflows by managing high-volume operational queues and tracking ticket resolution progress.
- Monitored workflow metrics and queue performance to maintain consistent operational throughput.
- Collaborated with cross-functional technical teams to resolve dependency-driven issues and maintain service continuity.
- Maintained structured documentation and operational records supporting internal reporting and process visibility.

Accenture (via First Meridian)

HR Operations Practitioner

Sep 2024 – Dec 2024

- Supported employee onboarding workflows and maintained operational case records within ServiceNow.
- Tracked documentation completion and workflow stages to maintain visibility across onboarding processes.
- Ensured data accuracy and adherence to structured operating procedures within a high-volume environment.
- Coordinated with HR and internal stakeholders to resolve workflow dependencies and improve turnaround time.

[24]7.ai (Best Buy Process)

Operations Support Associate

Feb 2023 – Oct 2023

- Managed operational service workflows while maintaining accurate CRM case documentation.
- Logged case activity and issue resolutions to support operational tracking and reporting accuracy.
- Investigated product and account issues using structured troubleshooting procedures.
- Consistently met performance targets related to resolution timelines and service efficiency.

KEY PROJECTS

Retail Sales & Inventory Optimization Analysis

- Performed exploratory analysis of retail sales datasets using Python and SQL to identify product demand patterns.
- Evaluated Weeks of Supply (WOS) indicators to highlight potential inventory shortages and inefficiencies.
- Built Power BI dashboards visualizing category performance, stock turnover trends, and inventory health metrics.

Marketplace Operations & Logistics Performance Analysis

- Analyzed marketplace fulfillment datasets to study delivery timelines and logistics performance patterns.
- Identified operational bottlenecks affecting delivery success rates across geographic regions.
- Developed reporting dashboards visualizing operational KPIs including delivery time distribution and service reliability.
